

13mm Wide Chamfer Adaptors

Features:

- 13mm wide Tang
- Chamfered corners (removing steel from adapter) allows extra steel on the matching point. For any given body width of point this makes more wearable steel at a critical place.
- The A1310 are ideal for repairing worn Keech Adaptors
- The A1320 are compatible with existing seed boots, no loss of breakout force.
- The A131357 has a narrow deep extended neck for less soil disturbance. It needs appropriate Seed Boot.

Specifications:

Material: High Strength Alloy Steel
Roll Pin: 1 ¼" x 5/16"
