

## 16mm Wide Tang Adaptors

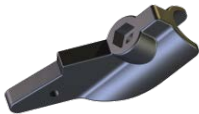

### Features:

- 16mm wide Tang
- A0005 requires welding (seek professional advice)
- The A0010 are ideal for repairing worn Keech Adaptors
- The A0020 are compatible with existing seed boots, no loss of breakout force.
- The CPA002 has a narrow deep extended neck for less soil disturbance. It needs appropriate Seed Boot.
- A0040 is compatible with existing seed tubes
